Academic Assessments

Pre-service Teachers will write a report demonstrating how they are building teacher knowledge in their placement through research-informed and reflective analysis of theory and empirical evidence applied to practice. Pre-service Teachers will collate an e-folio of annotated artefacts to demonstrate their reflective practice, application of professional practice, knowledge and engagement through action learning and reflections. An effective approach to choosing and collating artefacts will be to parallel this task with the planning cycle in the preschool and school settings, including the feedback and comments provided by Mentors.
